Preface

This type of Sugarcane Juice extractor is very popular with users all over the world. It is designed with 5-grade gear transmission for less power consumption, driven by heavy duty motor and controlled by pressing buttons to turn on or turn off. It has three stainless steel rollers, can crush the cane to very perfect result.

With a stainless steel body and 4 castors, this particular model offers a better appearance and convenient use to juice shop owners anywhere.

It also can be used in hotel, restaurant, super market etc.
